#### TIME IS THE TEST.

The Testimony of Maysville People Stands the Test.

The test of time is what tells the tale. The public soon find out when misrepresentations are made, and merit alone will stand the test

Maysville people appreciate merit, and many months ago local citizens publicly indorsed Doan's Kidney Pills; they do so still. Would a citizen make the statement which follows un-less convinced that the article was just as represented? A cure that lasts is the kind that very sufferer from kidney ills is looking for. . H. Paul, carpenter by trade, living at 333

East Third street, Maysville, Ky., says:

the recent election the Canvassing Board threw "I value Doan's Kidney Pills as highly today as I did when I first used them in 1899. I got a box then and used it for pain in my back and other evidences of a disordered condition of the kidneys which had given me much trouble for two years or more. This remedy acted promptly and I was soon cured. I did not notice any of the difficulties until some Stamp Co. announces that he four years later, or about a year ago. I again procured Doan's Kidney Pills at J. Jas. Wood will leave for the East in ten days to buy new premiums & Son's Drugstore and all symptoms of the trouble were quickly and thoroughly removed. Since then I have not noticed any signs of rouble of any kind arising from my back or kidneys. I most cheerfully re-indorse Doan's Kidney Pills, for they are certainly worthy of

The readers of this paper will be pleased to lear 1 that there is at least one dreaded disease that cience has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a onstitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

W. S. Yazell, City Physician, reported the Almshouse in excellent condition. One discharged, James Burger, and none admitted. Seven emergency bonds of \$500 each of 1904 not being issued were by order of Council

destroyed. Mr. Nichols, representing the Ohio River and Columbus Railway, appeared before Council and presented his case. He wanted this city to secure the right of way between Aberdeen and Ripley and further that this city give the Company a free ferry franchise, as they desire to transfer their cars on the ferry and run them right onto the L. and N. track. A crossing is expected to be made at Lexington street. The matter was referred to the Turnpikes and Railroads Committee.

The saloon license of John Dersch was transferred to R. R. Forst & Co.

The matter of opening up Chester street to the Carmel pike has been a thorn in the side of the city for years. The city, through F. Devine as agent, has in consideration of \$175 bought the intervening lot from Robert Hill and wife and will now proceed to open a much needed thoroughfare.

thirty bonds of the denomination of \$500 each was read and adopted.

The East Enders being very modest in their demands, want more light, and perhaps they need it. The matter was referred to the Light Committee The Chairman of the Ways and Means Com-

mittee was authorized to sell fine \$500 emergency bonds to meet current expenses.

When Mr. Crowell arose and called the attention of Council to the dangerous condition of the old McDonald House in Front street, known as the "Silver Moon," he evidently was not aware that he was applying a match to a powder magazine.

City Attorney Wood was on his feet in a instant and protested that the gentleman did ton, Ind. not know what he was talking about, the buildng, so to speak, was as strong as a bull and sound as a dollar; that its walls were a couple of feet thick and the whole locked together with iron chains. WE had occasion during the recent Presidential campaign to say a number of harsh things against Mr. ROOSEVELT. Now, in common with the Democratic press at large, we are beginning to realize that the devil is not as black as he is painted after all, and that the President is beginning to display many commendable traits. . . BUT "THE LEDGER" SAID SO

Hopkinsville Kentuckian.

The Democratic Courts of Louisville cannot afford to let the fine against Dick Knott stand. Knott has been a rerentless enemy of the Democratic party, but the opinion is general in Kentucky that he proved in his trial that he told the truth. A religious wave is sweeping over Louisville. The Roosevelts, the Folks, the LaFollettes and other reformers are creating a sentiment for purer politics and a more wholesome respect for the laws. The people of Kentucky are tired of crime in Breathitt county and rottenness in Louisville. If the only Editor in Louisville who has dared to expose the conditions known to exist under the very noses of a blind police force is to be jerked up and fined for telling what he knows, the Democratic party may wake up some fine morning and find that a wave of reform has swept it out of power in Louisville. The Courier-Journal last week paid \$100 for prize articles on the best way to advertise Louisville. It did not occur to any of the writers to suggest that the best plan would be to clean up the town, enforce the laws, punish criminals and protect the lives and property of people who visit the city. Not longer ago than Saturday afternoon a woman was slugged and robbed on one of the principal streets of the city.

## Old-Jime Democracy

Ownership" of the Railways

Louisville Evening Post.

The Hon. William E. Chandler has sent a save the bacon of the Republican party, keep Mr. Bryan out of the White House and preserve the country from numerous other things that Mr. Chandler conceives to be evils, and some of which are evils. The colored vote is one of the things Mr. Chandler wants taken care of, though if he will carefully examine that vote in many year. Mr. Chandler alse fears for the dogma of Protection unless the rate bill is passed. It would be a great thing to get rid of Protection that costs the American people many billions every year. He is also distressed lest the Gold Standard be injured in the shuffles. The last speech made in the United States Senate in favor of an impossible double standard came from this same William E. Chandler, who horse, and should have no more inclination. wanted England, France and Germany to join us in the business of partial repudiation and demonetization of gold. As for the Gold Standard we have-it is no great shakes. It is handicapped by nearly half a billion that is more or less fiat, though full legal tender. In 1853 the Democrats made a heap better Gold Standard, and if there had been no war between the states the Gold Standard and Freetrade would have been as much of a settled policy with us

It will be a long time before the Bryanized Democracy gets control of the Government, and there is no occasion for a man as shrewd

Huffman Dickens.

The Folly of "Government as Mr. Chandler is known to be to be as much alarmed as Mr. Chandler seems to be. What ails Mr. Chandler is that he agrees with Bryan, La Follette and the other agitators about this railroad mess that is now a political issue, and soon to be the paramount, perhaps the sole issue. In his letter to the Senate he virtually letter to the United States Senate advising that advocates it, or something worse, and says the body to pass a railroad rate bill if they would people can make \$300,000,000 a year by it. It is true that to do this Mr. Chandler proposes to confiscate one-third of the property of the railroads. A gentleman down in Tennessee, who writes over the word "Tiberius," proposes to confiscate two-thirds of that property, and I have no doubt the woods are full of luminous and patriotic political economists, who would see "Tiberius's" cut and go him another cut three bites at a cherry? Why confiscate onethird or two-thirds, when it is just as easy and just as honest to confiscate the whole thing?

It is a mistaken idea that the railroads belong to a few men, and if they did it would be just as wicked to confiscate them as it would be if they belonged to 40,000,000 men. In morals, the Government has no more right to confiscate a railroad than I have to steal a

Does anybody suppose that it would be possible to annihilate four billions of securities that are now earning \$200,000,000 without a financial, political and social convulsion? Ac cording to Mr. Chandler the twelve billions now earn \$600,000,000, and he would reduce that income to \$240,000,000. Then does anybody suppose the Government could operate the railroads at anything like the same expense the companies operate them? This Government never yet built a house that an individual could not have built for half the money, and you take the Pennsylvania Railroad and turn it over to the Government to run and it will cost the Government twice as much to run it as it costs the present company.

And then the politics of it. Here is a row like a dozen wildcats over rural delivery carriers in politics, and there is going to be a big scandal about it. How will it be when the hundreds of thousands now working for the railroads come to work for the Government? What sort of a row and what sort of a scandal will you have then? What will a common man's vote avail against the innumerable political

clubs that will be formed of railroad employes? Mr. Tiberius does not propose to operate the railroads. He would have the Government seize them, annihilate nine billions of their value, pay four billions for them, and declare them public highways. Then he complacently remarks that private transportation competition would place rates exactly where they belong. Who would compete with the Pullman Palace Car Company? You would have to raise at least \$50,000,000 to start it, and I would rather undertake to win money at Sharkey's saloon playing cards than to try to compete with the Pullman Company in transporting passengers from place to place.

Of course, the Government, under Mr. Tiberius's plan, will have to keep the roads in repair. That will take an army. There might be great confusion, great inconvenience and great danger in the schedules. There would be a thousand difficulties not now considered. If the Government is going into the business, let it go the whole hog, and pay the market value for the roads and own and operate them. I am ready to agree that that is what will be when men and women become civilized, but that's 500 years ahead of us. Meanwhile, let the Government mind its own business. It will have its hands full if it does that. Mr. Tibe rius tells a deal about a "private function" and a "private corporation" that is as confusing and s incomprehensible to my poor understanding as a story of a cock and a bull; but I can't see why the Government shall not fix the price of a ton of coal that the railroad bauls, if it fixes the price the railroad shall charge for the service of hauling it. Is transporting a thing a work of greater dignity than the production of

It is easy to get into a run down state and stay that way and forget what real health is. We never appreciate real health when we have

After feeling all run down, nervous and tired out, month after month, most people simply hope against hope that they will feel better soon. Instead of trying to do something to help

themselves feel better, they depend on hope. The only way to really help yourself is to get new strength and increased vigor.

Win back your right to feel strong and well A well person ought to wake up with a laugh

every morning. Health, vigor, determination, courage-in fact, all that makes life worth living depends upon a healthy supply of Nerve Force.

Paine's Celery Compound builds up the supply of Nerve Force, it revives the old force and makes It not only does this, but by strengthening the nerves that control all the organs of the body, it cures the real cause of headaches, neuralgia, rheumatism, malaria, and the many diseases coming from a run down condition of the nerves.

Gertrude Jenkins allowed herself to gradually sink into nervous prostration, one of the final states that tired, abused nerves reach. Her experience is valuable to all those who feel "run down," "tired out" and are not helping themselves to get back to real health.

"Paine's Celery Compound cured me of nervous prostration when I was so weak and used up that I had to lie down part of The doctor advised me to go away and take a vacation to build up, but I could not give the time or money. Paine's Celery Compound built me up within two weeks,-my headaches disappeared, my appetite returned and the aches and gave way to new strength, life and increased vigor. I enjoy perfect health today and used less than five bottles of Celery Compound, so know by experience how valuable it is."-Gertrude Jenkins, 714-63d St., Chicago, III. (Member Ladies of the Maccabees.)

"Nervousness," "nervous prostration," "nerve decline,"-that run-down, worn-out feeling,nine times in ten are simply the result of prejudice, carelessness, or ignorance.

Prof. Phelps, of Dartmouth University, was the first physician to enunciate the principle which to-day is recognized as one of the foundations of the science of medicine,—the great enlightening truth, that the nerve system rules all the body's
